DETAILED ACTION

Response to Amendment

1. The reply filed on 9/17/03 consists of amendments to claims 1, 12-17, 19-25, 28-39, 41, cancellation of claims 6-11, 18, 26-27, 40 and remarks related to rejection of claims.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the first wall, the second wall and the third wall and edges of these walls as well as the first wall having a plurality of mounting openings must be shown or the feature(s) canceled from the claims 12-17, 19-20², 28-34 and 41. No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claim 12 is objected to because of the following informalities: in line 18, "the" is missing in front of side. Appropriate correction is required.

4. Claim 30 is objected to because of the following informalities: in line 4, "a" is missing in front of bottom. Appropriate correction is required.

5. Claim 35 is objected to because of the following informalities: in line 4, "the" is missing in front of side. Appropriate correction is required.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

7. Claims 12-17, 19-22, 28-34 and 41 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

A cable riser having a first wall, a second wall and third wall as well as the first wall having a plurality of mounting openings have not been described in the specification.

8. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

9. Claims 12-17 and 21-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

10. The independent claim 12 recites the limitation "the top, bottom and side" in line 19. There is insufficient antecedent basis for this limitation in the claim.

11. The independent claim 21 recites "and designated" in line 13, which is not clear.

12. The independent claim 23 recites the limitation "the outer portion of the second end" in line 6. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

13. Claims 1-5 and 35-39 are allowed.
14. The following is an examiner's statement of reasons for allowance:
- Applicant's arguments against combining Takeo with Meyerhoefer are persuasive.
